## Professional Objective.

My professional objective is to utilize my skills and experience to contribute to the successful completion of projects and the growth of the company I work for. I also aim to continuously improve my skills in the field of web development while staying up-to-date with the latest technologies and trends.

## Education

### Front-End Web Development, Start2Impact, 2022

Technical Skills:
- Proficient in HTML, CSS, JavaScript, React.
- Familiarity with Bootstrap, jQuery
- Experience with version control (Git and GitHub).
- Familiarity with package managers (NPM).

Projects
- Developed a responsive clone website of The New York Times using React, implementing Axios for API handling.
- Developed and deployed a personal website using Git and GitHub.
- Developed a data visualization web app on global warming using Recharts and deployed it on Netlify.

Extra:
- Developing (ongoing) a website for a local business

## Skills

- Creativity
- Precision
- Problem solving
- Adaptability
- Critical thinking
- People Oriented

## Hobbys and Passions

In my free time, I enjoy playing tennis and 5-a-side football. Physical activity helps me to disconnect from work and maintain a good balance between my professional and personal life.

### High School

High School Diploma in Languages (80/100)
